25X1 [REDACTED] Comment. In the evening of 14 February, a troop shipment of 16 heavy artillery pieces coupled to prime movers was unloaded in Gera and the troops subsequently marched to the barracks installation in Gera-Tinz. No motor vehicle [REDACTED] identified.

25X1 The comment of this report expressed the assumption that, possibly, elements of the 54th Gds How Arty Regt of the 21st Gds Mecz Div from Halle were detrained. As the present report now lists these two shipments as having gone from Altengrabow to Gera, it appears more probable that units of the 10th How Arty Brig (US) of the 6th Arty Div from Altengrabow had been transferred to participate in the exercises of the XXIX Gds Mtz Rifle Corps in the Gera-Zeitz-Lossa area. This is althmore possible as, according to other information, all Rathenow artillery brigades of the IV Arty corps were involved in winter exercises in the various army areas. So far, only the 10th How Arty Brig (US) from Altengrabow had not been mentioned in connection with these winter exercises.

25X1 [REDACTED] Comment. Except for the two last shipments, all shipments were reported previously; however, the train on 24 February from Dallgow-Doeberitz to Jueterbog and that on 26 February from Forst Zinna to Dallgow-Doeberitz [REDACTED].

25X1 The train [REDACTED] was reported in the reference report, without destination, though. That train carried components of the 2d Light Arty Brig (US). [REDACTED] another train with units of the brigade had been loaded in Dallgow-Doeberitz the same day. See [REDACTED]. The fact that Rathenow was the destination of the train [REDACTED] is indicative of a shipment of a unit of the 6th Arty Div. Motor vehicles of the division were, however, not reported from the Jueterbog area at the end of February.
